About This Game

A standalone GUNGRAVE VR adventure featuring new enemies, stages and more!

After the battle to eradicate the nefarious drug SEED from South City, peace appears to have returned to the metropolis.

While rolling up the remaining distribution networks for the drug, Mika has received confidential intel on a chemical plant in the suburbs of South City, where suspicious lifeforms suggest the presence of SEED.

The battle is not yet over.

As undead assassin Beyond the Grave (Grave, for short) battles alone behind enemy lines...
...a mysterious man watches his every move.

In addition to third-person action, GUNGRAVE VR U.N introduces brand new side-view stages that mix VR action with the feel of classic side-scrollers.

Experience the next level of intense VR action!
